Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Linear park will need a place to loop until the north-south connections are made, if not then it will not be used.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Overall site is isolated and don't believe there is enough draw to the site. Highway acts as a barrier from the neighborhood. Parks that don't have neighbors have a tendency to feel unsafe.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		As someone who would walk/bike to this park I think that making safe pedestrian and bike lanes across Dowling should be a priority not an "if we have enough money" item. The bridge right now is completely unsafe for bikes/pedestrians
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Bike path to downtown. Walking paths.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Can there be some planning for connecting 26th Avenue North to the bicycle and walking trails along the river.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Pedestrian/bike access needs to be improved. Dowling is too dangerous due to heavy traffic
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Connections need to be made from these proposed sites to parks across the Interstate and river that would tie this whole thing together; connections for foot and bike traffic to Perkins Hill Park to bike path and to Terrace Park over river to bike paths. This way there is another connection besides Dowling Ave, which a really poorly planned idea. Connecting parks on each side of the river and highway to the ones being proposed helps in having access that you never have to be outside of a green space via walking or biking.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		... with a look towards to connecting northern park.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		and there should be an aim to find a way to connect it to the rest of the river front to develop a continuous unblocked pathway from north to south.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Bike/ped trails from Dowling to Ole Olson is critical for Phase 1.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Dowling Ave bridge improvements are key to connecting the space to the community
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I think you need more connectivity with Nomi and NE.....this spot is downhill from Nomi and not near a bridge to NE. It's sort of a dead end and you have no plant to connect either community in a meaningful way to the site.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I would like to see some verification included in the plans to guarantee that the new improvements will connect bike/walking paths from the North Regional Park with the paths at the riverfront area near Broadway Ave. to the south.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		More green space along Dowling so that it is a "gateway" to the site, connects with themes of water systems infrastructure (rain gardens and pervious road materials) to the river. This is the main entry point to the site and could be more interesting, think public plaza/street scape
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Some of the open park space needs to extend over to I-94, both to facilitate a future ped-crossing of the freeway, and so the park is visible to passing traffic.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		The Dowling connection is critical it should be a priority
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Try to make them connect- a corridor
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		It might need to be longer term/phase 2- but it'd be great if there could be a light rail stop at the park to ensure easy public transportation access.

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Make sure to include a large number of bike racks, a dedicated space for taxis and ride shares, and possibly offer a discount or priority lot for carpoolers. Cars are not a priority.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		The River needs to be viewed not just as an amenity, but with its historical function as a transportation artery. Parking of private vehicles should not drive the development strategies for future phases. Water taxi service on the river, and shared vehicle pools are better alternatives.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Will transit visit this site? How about a water taxi/ferry for commuters?
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		It seems like a tiny park and too much parking. I realize there needs to be parking but it seems like something like a parking ramp would be better.

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I do not like the restoration of the industrial elements. I believe they are relics of the past and signs of the environmental destruction that occurred on this site for far too long. I do not understand keeping these and am definitely in favor of their removal.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		The relics should be removed. They are obsticals for building and also represent another failed Federal Gov subsidy for jobs.

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Make it possible for park visitors to use the river, not just look at it. Needs to include river recreational access, not just river viewing. (Docks, ramp, etc.)
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		opportunity for water ski show site
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		River access, activities and experience for paddlers is important.

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Please create a multi-purpose trail ~ i.e. separate trail for bikes, pedestrians and dog walkers ~ racing bikers are dangerous, annoying and haughty ~ they think the trail belongs to them and all others are simply "in their way".
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		it'd be great if there could be some type of elevated board walk over the river that could be a shared use path that connects Ole Olson Park with Upper Harbor trails. Connecting Upper Harbor river front with Ole Olson should be in Phase 1 in some form....The trails are the most basic element and should be done for baseline connectivity...this could be an onerf too or some type of bike/ped facility.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		More green space/park areas. Something that would work well in the winter, like an ice skating rink for winter and rollerblading path in summer.

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Can we locate the dome they want to put in North Commons Park here?
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		More green space and draws for use, for example skateboard park, whatever, to draw people out not house people, making the land private.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I particularly enjoy that the riverfront is park space. We need a safe bike/walk riverwalk trail
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I think a thoughtful and forward-looking approach to the bike paths, walkways, playgrounds and other green space will be critical . I think the Park Board is fully capable of this and will do a great job, as they have around the metro area!
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		A simple park with a trail along the river, open fields for soccer or other sports, and restrooms would be the best use of this land. Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		It's disappointing that the domes, in particular, are just being treated as "relics", even though they're less than 40 years old - isn't it possible to actually re-use these as indoor space (e.g. for roller skating/derby) rather than preserving them simply as a background to the music venue?

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		What is being done with the actual "relics" in Relics Park which is adjacent to green 2.3 acre green "Park Space"? Build a skatepark/bmx facility that uses the inside of the domes and the outdoor space between the domes. You need activities like skateboarding/bmx that will be used everyday and also attract youth and families. A regional skatepark would also compliment the 1st Ave. music venue. Use City of Skate, partner of MPRB to make this a reality.

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Prefer that the "industrial heritage" is not prioritized. The industrial heritage tells of a history of corporate agriculture, pollution of water (fertilizer domes), chemical farming/industrialization of our food chain, and decreased ecosystem/food crop diversity. Bridge the connection to neighborhoods, as some community members feel that UHT is not "their neighborhood." When in actuality approximately 10 neighborhoods are only a mile or mile and a half away.

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		The parks should have names that represent our diversity more. Maybe a name in a Native American, Hmong or Somalian language. Something that isn't just named after dead white dudes.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I like the linear park very much, and but in a land-constrained city there's too much park and not enough homes and tax-paying capacity. Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		No corporate naming rights, please! Stop selling your soul.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I'm a little disappointed that only 15 acres out of the total 48 is going to be park land. I don't think that is enough green space and I worry about the environmental impact of all the development.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Seems like much too little actual/real public park -- i.e., greenspace, useable by the public not event space or programmed space.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Dowling Plaza may be publicly owned but it is of little interest as a park space. There is very limited green space along the river, and next to no access. (P3-2)Compare this to riverfront further south, where there are larger park areas and wider parkways.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I'm super disappointed at how little actual park is being planned.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		Park spaces are secondary to development and seem like leftover spaces, park space is squeezed in current Phase three configuration. Can the site be 50% or more park/natural space?
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		The amount or location of park space is not about how you enhance the concept or work with it. It seems arbitrary right now it is just a numerical portion of the site.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I think the parking space to the south should be another park area...Don't treat the southern half as another part of the park, but make it part of the whole space. Something like Millennial Park in Chicago. You would have trails that connect all the way around so people who want to get more miles in can just do the full loop around the whole park.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I would like to see more land set aside for park, wildlife, green space, and access to the river.

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I think that the 1/3 of the space allocated for park is far too little considering the available space of the development. I think the thin stretch of park is constricting, and the the green space should be more open, extending back farther from the river to give space for aspects of park other than the riverside path.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I think there needs to be more land allocated to park land.

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I would like to see more space dedicated to park, natural areas, open space. I think for such a large area, more should be natural park space.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I would like to see the dedicated park space greatly expanded in the large area on the southern half of the site that is currently set aside for future development. While the temptation to encourage revenue-earning development is always present, this site gifts us a rare opportunity to gain an incredible community asset. Aside from those near Theodore Wirth Park on the west end, most north Minneapolis residents have little green space in comparison with other parts of the city, yet stands to gain a premium park through this redevelopment effort. With the UHT, we have a chance to turn a large swathe of precious riverfront land into a beloved community space in which to congregate and recreate out of doors, and without cost, in an area that has been neglected and even excluded outright throughout the city's history, and I would hate to see that chance give way to a more imposing built environment along the river.
Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		I would prefer additional dedicated park space, perhaps in TBD southern areas

Upper Harbor Terminal	Post Concept	Online survey	Aug-Oct 2018	Online Survey August - October, 2018		The bike and pedestrian path should not be an option. To make the whole neighborhood feel welcome it needs to have as many ways to get there as possible.

Upper Harbor Terminal	Post Concept	Meeting	11/30/2018	Southeast Asian Focus Group Public meeting		Nice to have winter events – need something like the Holidazzle that is closer and more accessible for community members
Upper Harbor Terminal	Post Concept	Letter	11/19/2018			We don't want to see huge paved areas for cars.
Upper Harbor Terminal	Post Concept	Letter	11/19/2018			this is not an area whose purpose is to fulfill what they want for a neighborhood park for the Northside. If amenities are needed in Northside parks for people living in our neighborhoods, those amenities absolutely should be provided but not in this very unique area. (Not the place for courts and fields)
Upper Harbor Terminal	Post Concept	Letter	11/19/2018			There are certain things, such as the old domes, elevators, chutes, etc from the port days, which I abhor but which are a legitimate thing to discuss for UHT
Upper Harbor Terminal	Post Concept	Letter	11/19/2018			There needs to be much wider green space along the river side and also a promenade for a substantial distance.
Upper Harbor Terminal	Post Concept	Letter	11/19/2018			There also needs to be a vastly larger green space where people can have festivals and at times have picnics etc
Upper Harbor Terminal	Post Concept	Letter	11/19/2018			strongly suggest that until the UHT is solidly established, that it not become a youth destination.
Upper Harbor Terminal	Post Concept	Letter	10/31/2018			We support the development of the parkway, but feel as though the connections to the north and south must be well understood and planned for.
Upper Harbor Terminal	Post Concept	Letter	10/31/2018			Prioritize protection and enhancement of lands within the Mississippi National River and Recreation Area. "Our primary priority for the site is to retain public ownership of the riverfront, make it accessible through trails and recreational amenities, and to restore as much of the shoreline as possible"
Upper Harbor Terminal	Post Concept	Letter	10/31/2018			The industrial relics provide an interesting opportunity to interpret the history of the site, but we do not view preserving them in their current state as integral or necessary. We think there is a lot of leeway in how they can be re-used, re-purposed or even re-interpreted elsewhere on the site if necessary. For example, the domes could be cut down to create rings within which events and activities could occur and could add additional green space.
Upper Harbor Terminal	Post Concept	Letter	10/31/2018			We think that the location, design, and use of the public park space is an important factor in determining if 15 acres is adequate. Based on the current concept plan and layout, we have concerns that the 15 acres will not be adequate because the designated park spaces (Relics Park, Waterfront Park, CPAC north lawn) are all adjacent to the CPAC

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I've lived in Camden since 1969 and Upper Harbor was always an off-limits place. It always felt "we the people" weren't allowed to go near the river ~ and I've always hated that. Adding I-94 separated it more, it became the industrial zone. Having more buses on Dowling & Lowry that go to Second St and a bike & pedestrian path with a NON-MOTORIZED bridge over the freeway somewhere in the middle (34th - 36th) would help make feel like part of the neighborhood.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I used to work at West Broadway and Dupont. One of my favorite things to do in the summer was to meet people for picnic lunches at the park in front of MPRB. Even with the park there and being only a mile away, driving often would take 10-15 minutes and biking did not feel safe. With usually only a 30 minute lunch, it wasn't often feasible to take advantage of the Mississippi River park.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I usually bike or walk, but I notice that many people drive to North Mississippi Regional Park. It is a destination area, because it is so nice and so wild.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		The Upper Mississippi Regional Park and the attached Webber Park are important destinations which draw people to the area. However, they need more parking and signs along the highway. They also need more publicity.. However, the new "natural" pool at Webber probably does not need more users, at least on some days.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		It would depend on the musical offering but if the bicycle connections to my neighborhood to the west and securing my bike were simple and clearly defined, I would attend often. However, if I had to deal with parking (because natural connections to the neighborhood were not established) I would be less likely to attend.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		A bike path along Dowling would make it more accessible. Also this is a amazing - super excited - thanks for the survey!
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Most particularly, bicycle connections to regional trails and to downtown. I'd love to bike to UHT, grab lunch or coffee on a Saturday, and head out on a bike ride to Minnehaha Falls along a unified river parkway, or grab a cup of coffee on a Monday morning as I begin my bike commute to work downtown.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Also would need to keep parking cost cheap or zero. Paying for parking at public parks is offputting. Charge nonresidents for it or more than you charge residents. Seems only fair.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		connection to trails, lakes, pedestrian/bicycle recreation. Better public transit connections would improve access.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Most seem to be on the other side of the river now. More access by boat would be a benefit.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		The Broadway Ave and the surrounding North Minneapolis neighborhoods. Better links to public transport to and thru the park.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Easy access off 94 (once the road work is done).

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		The city should also either purchase or acquire a strip along the river that would connect this new area to the existing NMRP so people can flow between the two
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Theo Wirth Park, Victory Memorial Parkway. Nature, bike trails, live music (on the parkway).
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		There should be a ped mall/bike area that links the neighborhood to the river and slows traffic. Cars should be included but the mall should be European style so it drastically slows car traffic.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Connect to Victory 44, Webber Pool, Northeast Breweries
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		From Dowling to about 36th, I think a promenade would be nice ~ it would encourage people to move in all directions in the area around the amphitheater. From 36th to Lowry, narrow the walk a bit and have a natural edge. From Dowling to North Mississippi Regional Park, paths similar to what's already in the park would integrate the two. I'd to see the city acquire the entire riverfront ( just 50' - 100' width) and have paths enabling people to walk or bike the riverfront from one end of the city to another.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Grand rounds bike path - this should be connected for bikes to existing pathways!! People like to explore the city!
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		It has to connect to the Grand Rounds or other bike trails. It is critical that you can EASILY bike and drive to/from Northeast and Downtown.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		more biking and walking paths that connect up with the paths south of Broadway
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		The park further North was a destination for me before it was developed and afterward.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		The riverfront needs easier access from the Northside area between Lowry and Dowling.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Not through trite representations and banal monuments -- have it be a *working* waterfront, with actual jobs (green jobs, most likely) -- not more gentrified luxury strips for the wealthy. Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Sometimes I bike and sometimes I drive. Most people drive to get there except for those who live very close.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		walk, bike, drive - Trails to these destinations from the neighborhoods are essential. However, need public transportation and the ability to drive in. This new development should draw people from all over to come and spend their money and enjoy the Northside

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		drive. but needs bus routes to serve North Minneapolis
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I drive (yes, I'm one of them) and if I can't park I leave ~ a parking ramp that's cheap, between the freeway & Washington (leaving the riverfront open for parks, retail & entertainment) will help bring suburbanites. When Metro Transit is simple, I'll also use that ~ like, if it goes within a block or two of my destination.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I now have to drive and do it seldom having moved from NE to White Bear Lake. I used to drive or bike.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Lakes are a biking destination on a long ride, but I also frequently drive to the park to walk and dine there and in the neighborhood.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Most now are by car, walking, or bicycle. I think opening up lock and improving boat access would be great.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Mostly by car and transit. Should be accessible by bike and on foot, to some degree.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Bike and car. Minneapolis public transit sucks.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Bike car, we live off Dowling & Penn and Dowling is not great for biking, so most likely car. I'm not aware of a bus running down Dowling, that would be a nice option too. Also bike share (although stations are lacking in NOMI)
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Car, bike, or bus. I think people use all modes of transportation to get to these destinations.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		drive
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I drive once I'm that "far" north, but coming from S. Mpls, I'd have to transfer at least twice to get to that area. N. Mpls has long been underserved with connections to other parts of the city.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Once, when I went on a boat ride with someone that lived on the river and had a boat. Most people will drive their car.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Walking/biking.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: Natural elements should be included but contained. I just don't feel naturalization of the area is practical. If the area is going to support a large scale music venue, you don't want a huge crowd trampling through a restored natural setting.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		To be realistic, think half green boulevards along walls and half paved to the water. In North, a natural river edge will be polluted and unsafe. We have this in N. Mississippi Regional park and between the mosquitoes and pan handlers, it doesn't work.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		all of the above, except the promenade, unless it was part of a music destination.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Preferred experience of the river: Bridge across the river
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		kayak and canoe access, scopes and info for bird watching from shore
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Knowing some of the history of this mighty river helps me enjoy it (thank you Mill City Museum) as does understanding what's in the river.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I love seeing the river in its natural state. I have canoed the river and would possibly do more of that in the future, but I would mainly like to see the wild byway aspect of the river enhanced.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Waterfront access in a mainly natural environment
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		restaurants, parks, and water are always a good combo

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Being able to be on the river - restaurant would be #1 choice, boat rental #2
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Growing up in Winona, I loved the fact that there are places you can pull up with your boat and have a pizza or a 12-pack brought down to you if you called ahead.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I would like to see good fish habitat and fishing piers. This is a healthy way for men to engage in nature and the river.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		info for bird watching from shore
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Better access to the river. Better access to passive green space.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		This a river not a lake. I see limited use for people to get into or out of the water perhaps canoe Kayake launch I envision a strip of land next to the river to walk bike etc. with a casual environment I don't see a space for large groups of people to gather A boat dock for people to park their boats for the season with small scale retail to support the families park their boats
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Clean access (water access/experience)
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I would love to see boat, canoe, kayak rentals. Paddleboats. Shoreline dock walkway for walking and fishing (like the large one on Lake Crystal near N. Memorial) A rowing school? Promote healthy exercise
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: Designed would be great but there should be waterfront activities - fishing areas, boating areas, etc. similar to hidden falls area
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Preferred experience of the river: Activities
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Preferred experience of the river: Relaxing near it and active in it
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Space for relaxation along with the ability to go onto the water.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Whats the water quality in the area? Could it be used for recreation or are built environments that use the river as a design feature better suited? From the little I know of the area, I would like to see a more casual environment that invites people to the rivers edge to gather and even some recreation.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Riverwalk for pedestrians, similar to the new feature in both Milwaukee and Chicago. Launch points for kayaks/canoes.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: Waterfront access in a mainly natural environment
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		How does this area fit into the whole upper river plan? If a large music venue is included in this development, I think you know your answer is a waterfront that can accommodate large numbers of people.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		The picnic areas along West River Road are another nice way to bring people to the water.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I think we might be able to support a second rowing club location. I'd like to see waterfront access in a casual environment. I always prefer a natural environment, but I don't think this is the place for it. I'd go along the neglected trails near St. Anthony Main for a little of that.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		There should also be areas where people can come up along the river with small boats, canoes etc and access the park area.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		See wildlife in the river. Have a healthy river.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I've always found it calming and meditative to walk along it or near it. I used to love seeing the herons that would roost in the trees on a small island near the park north of this location. The trees were damaged and I don't know if the birds returned to breed or not. Would creating a small location for them be feasible or necessary?
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Preferred experience of the river: In winter when the park is transformed into an ice skating rink, come here for a proper hot chocolate... that's right melted chocolate not cocoa with hot water. In the hot summer go for an ice tea."
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I would pay for river access like a boat ride, kayak rental for novices, Wilderness Inquiry type of outing.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Preferred experience of the river: Energetic spaces for fun and quieter, natural spaces for relaxation.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		A small harbor, with space for boats would be amazing. North and NE have less access to lakes and water access than south Minneapolis does. Access to water is something that I feel defines Minnesota, and providing that access would be very valuable for the neighborhoods surrounding this new park.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		An up river kayak launch seems like a good offering but I don't think it's practical to try to restore some sort of natural setting to an area that has been industrialized for more than a century. Pavement promenades, piers, fishing decks, steps to the water, with clear pedestrian and cycling areas and connections up and down river that would connect to more natural segments, makes more sense to me for a high utilization destination.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		As many opportunities to be close or on the water.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		canoe/kayak rentals,
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I think there should be water access for kayaking, canoeing, paddleboarding, as well as a marina docking space to accommodate power boats.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I want the water to be clean, the river healthy, and the access easy so I can choose my own journey.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I want to bike down, eat food, drink a beer/cocktail/wine/tea/coffee, listen to music, maybe catch a dinner cruise, visit the farmers market, go fishing, see art. That's what Mpls is to me. If we can get more of that closer to the river, that is better.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		What about something completely different like access to kayaks? Kayaking for novices. Or small excursion boats that for pay would take people out on the river who do not feel comfortable going out on their own on the river due to currents? How about a river/water experience for city people who don't get down to south Mpls? Make us feel a connection to the river.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: Smaller natural areas close to amenities to the designed areas. More designed than natural though.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Experience of the river: From plentiful, affordable housing nearby to it.
Upper Harbor Terminal	PreConcept	online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I imagine the ability to launch boats as small as a kayak as well as having a proper dock where larger boats can tie up and come ashore (assuming there was something to come ashore for).
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I want to be able to get out on it (even though I have some fear of the water), I want to be able to hear the water at times.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I want to bike, walk, sit along the river.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I want to canoe passed the park.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I would be most interested in kayaking and the ability to use a power boat with access to destinations along the river.
Upper Harbor Terminal	PreConcept	online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		If there is a way to balance this with natural experiences of the river, great. With the very industrial nature of that area now, designing a more urban experience seems more feasible than trying to restore a natural setting.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Preferred experience of the river: Dining, entertainment.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Preferred experience of the river: I think the emphasis should be on keeping the atmosphere natural. Nature should be the emphasis; the food venue should be a comfortable shawl to the experience and an ambience where you just want to stay the whole day and gaze out at people walking past.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Preferred experience of the river: See previous answers. I want to experience it visually and naturally, but we have such limited access in northeast Mpls to this now. Don't ruin this site completely.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Preferred experience of the river: Walking, eating, people watching, having a beer. If bars & microbreweries in the "zone" could sell compostable to-go cups which must be emblazoned with the park logo, purchased through city ~ it could increase popularity while still limiting alcohol.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Safer than that one boat landing area -- so overgrown it seem dangerous and I would not go there again.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		It is my community. I'm interested in returning it to a natural place, and a place for the people - the commons.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		A combination - need walking, biking trails but also areas that accommodate larger groups to bring people to the river.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: Mix and match, it doesn't have to be all the same along the entire development. Perhaps the northern section is more natural, while near the proposed music venue is a designed portion allowing more people to gather.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Similar to Mill Ruins, much of the older development of the site is likely large, concrete and steel and difficult to remove. Celebrate the architecture of the site in the new design.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		A history center incorporated into a picnic pavillion/bathroom building would be cool. Like an industrial nature center.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I envision wild riverfront areas
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I like the urban edge gathering idea. I think it's important to have places for people to gather. There was a nice park in Denver I visited once on a river. It had a lot of nooks and crannies of gathering spots, picnic areas, etc.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		If there was a big lawn - picnics, Frisbee etc. It has to be a park when there's no music

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		If there were sufficient daily visitors to the area with office and residential offerings, the "lawn" of the amphitheater could be useful as flexible picnic area, or maybe a Frisbee golf course, soccer field(?)

	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		In the winter it would be nice to have a beautiful outdoor (possibly refrigerated) skating venue, that could be used for hockey tournaments and recreational skating. Something smaller than the Roseville Oval, but large enough for multiple uses. Wouldn't it be nice to go skating with the beautiful and wild Mississippi as your view? I think that the same area could possibly be used for skating in the winter and field sports during the rest of the year.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Permanent restaurant that draws a crowd similar to Sea Salt or Tin Fish in South Minneapolis along with food trucks or casual cafe with food for before and after shows.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		We really need a combination to attract all types of people -
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		If there is a row of restaurants selling takeout food ~ people will sit by the stage to eat.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		There needs to be large areas where large groups can gather near the river...
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		As rule I like natural, but this area may be better suited to a designed area because of its industrial past. Would be interesting to tie in the old with the new.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Personally, I'm not looking forward to a flashy, high use area along the river. I would hope that the area would remain park like, and not built up with homes, large restaurants or other commercial venues.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		A beautiful park, open along the river. If the concert space is designed correctly, when not in use it is simply sculpture. We need this. We need LARGE open space and greenery in the north side. Our northside parks are too small which leads to danger and garbage.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		a safe, clean, natural place for children and their families

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Q16. Depends on what you offer, as outlined in previous offers. If you make it more green/natural/rivercentric and less concert venue, I would use it often since it would be close and easily accessible from my house.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I think shared use pathways for recreation (walking, bicycling, roller blading, etc.)

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I can see it giving people something to do. Interaction with the community, they should put a play area for children
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Restaurants, bike paths, music, and a farmers market would bring me to the Upper Harbor roughly 4 to 5 times a month in the summer and 1 -2 times a month in the winter.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I think this is not the area where the waterfront should be all or mostly "back to nature" with marshes, sloughs, reeds, etc. That is more fitting for UMRP which is nearby and is overall quite "back to nature".
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Maybe a skate park to honor the Space
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		A LARGE regional skatepark. Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		A permanent stage with open fields might provide the best bang for the buck as more than just music can utilize the space (state of the city speech, private events) while still maximizing the available green space.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		All of the above - We do need permanent stages with open fields to draw people not only to the river but to the hopefully restaurants that will be there - to support the businesses. We need all types of music to draw all types of people and different age groups
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Also, what will you do about noise control? This needs to be a primary consideration. People live within the area and across the river. What proof/analysis have you done that the noise won't carry? Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: a good balance, as long as there is access to put boats into water would be good.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: Balance is good - as long as there is an access point, natural water front is wonderful. It would be cool to have a stage space with designed water front buffered on either end by natural areas.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: Both - half and half (natural and designed areas)
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: Designed
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: Designed. We want people to want to go there and in an urban environment we need to encourage as many people as possible to use green space.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: How about designed to perform in an ecologically-beneficial manner? Why even bother with the word 'natural' when we can design something better? To take your question in the spirit in which it was asked, though -- maintain an even balance over time as more and more people A) move to the area, and B) are able to access the waterfront. Initially more 'natural' (lots of remediation to do, I'd imagine), transitioning toward 'designed' as it becomes integrated into the life of the city.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: I personally prefer natural, but would be supportive of something well-designed that would create pride and attract tourists. I don't think people recognize how wonderful it is to live near the Mississippi.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Designed vs. natural water front: I think a more designed area is probably more realistic. And I think bring more of the northside community together in the same space could be positive as well.

There was no recognition by us that there was a river there or any of the amenities that should be available to a community that has a great water resource in it. It was considered a very negative element to our community. We were starting to learn about the effects of pollution and that was seen as an extremely negative thing for the good of our community.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		a naturalized river edge are the best options. I do think this is a large enough area to accommodate some other uses as well, and I have mentioned those in previous questions. I think protecting the river environment and returning the riverfront to a more accessible and wild environment is important.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		What will the impact on wildlife be when you build this? Wildlife needs to be protected. This is shaping up to be a huge mistake that we'll all regret in about five years. It should be about greenery, wildlife, the river -- not money, money, money for a concert promoter!!!!
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I think the most important thing to do with this area is to protect the river environment and return as much of the river to a wild state as possible. I hope it does not become the location of high priced housing for a few, but rather a beautiful riverfront that is accessible to all people.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Id like access in a natural environment to protect the health of the river. Keep back erosion naturally.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		There should be a boundary of a natural edge to preserve the river banks.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Reduce any and all pollution from the site: years ago dust and smoke from the site were all but life threatening and now some are a little better but still a problem.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		some other recreational uses as appropriate for the environment, and a concerted effort to protect the Mississippi wildlife byway.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		There should be a wide range of food services ranging all the way from food carts or walking vendors for events to destination restaurants. There could be space for food carts not far from river and restaurants farther back ranging from low price to "destination" types. I am not sure whether I would want food trucks. Places like Sea Salt could be near riverfront with fancy sit down white table cloth restaurants farther back.. It is important to have foods from a wide variety of cultures because the Northside and nearby areas have such diversity. Hopefully we will have some high end housing near the rear of the area behind the public areas and they could support destination restaurants as long as there are people from other areas that also come.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Affordable for the folks in the neighborhood. Specialty restaurants using local produce. For sure, do no get rid of the Mississippi Mushroom production, but expand on the product. A mushroom restaurant. A combination of sit-down restaurants, take-out and food trucks.Fresh, healthy foods...no State Fair fried food junk foods. Ethnic foods representing the people who have lived in North Minneapolis...the diversity of the neighborhood should be represented.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey	Upper Harbor Terminal and Public Spaces Survey	Whatever is chosen, there should be affordable options. Can you imagine a single mom bringing her 4 kids to the river and trying to spend \$12-15 each on a meal that won't even fill you up? (This was my experience growing up.) Food trucks are spendy, mobile food stations might make more sense as it allows you to flex the amount of space for events. Food courts and restaurants should be a part of it, but possibly a block away as to not take away from the recreation opportunities near the water.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey	Upper Harbor Terminal and Public Spaces Survey	Oh God, no food trucks. Please. Be environmentally sensitive and ban diesel food trucks entirely for this area. We have enough air pollution already here. Don't add to it. You already sound like you will be bringing in 10,000 cars on a regular basis for "concerts" and who knows what else. At most, keep food concessions small/unobtrusive. Not a food destination. Offer vegan and vegetarian food first and foremost and explain why meat production is degrading out environment. Make this an educational place. Be cutting edge and ban meat and fish eating here altogether! Make it a veg-eating incubator. Or eat what is grown on site. Keep it serene like the riverfront -- even that Silver Lake Park up north manages to have a coffee shop that is not overly intrusive. No alcohol. No brewery. You need to consider existing air pollution in this area and how this can be done to NOT contribute to the mess we already have in NE.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		To match some of the industrial feel this area had, I'd like to consider using shipping containers for small food stalls. They can be built very tastefully and could have murals of historic Mississippi shipping traffic on the backs. Outdoor seating. Restaurants can be built further away from the river.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Would love a restaurant like Sea Salt - a destination point. Allow food truck to come in too. Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Aster Cafe has the best atmosphere in the area because of the charming brick streets, green patio, and views of the skyline. Extremely walkable and human-scaled.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Casual cafes with takeaway food counters!! Mobile carts are fine, but if they exist, there should be PLENTY of cafe seating. There is nothing worse than getting food and not being able to find seating. Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		CHECK: Food trucks and mobile food stations CHECK: Destination restaurants Maybe casual cafes with takeaway food counters, but I never patronize these. Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Defining moments that want to be recognized: A nod to the barge industry and how transportation along the Mississippi River has played a large role in the development of Minneapolis. Maybe have part of an old barge fixed up as a playground?
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Defining moments that want to be recognized: Originally it was the site of many lumber mills. In fact it was the largest lumber milling district in the world for about 30 years. That came naturally because of its location on the Mississippi River and the ease of floating logs down the river from the northern forests. Many of the original residents of Camden worked in jobs connected to the lumber industry. But then the city started putting a much of the extremely negative industry there. Southsiders still say that all of the industry that no one wants to live by should be put in Camden, and that was the attitude of the city in placing all the industries with negative consequences on the Northside. The placing of Highway 94 to cut off the river area from the community was much like the split of the Rhondo community in St. Paul. It created even more separation of our one great body of water from the community. The development of Upper Mississippi Regional Park nearby was a great positive influence on trying to reconnect the river to the community. And the decision to spend the extra money on building a beautiful new Lowry bridge was an indication that there is interest in upgrading the area and improving the community.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey	Upper Harbor Terminal and Public Spaces Survey	I think it would be nice to have some historical displays/markers that give information about this part of the river. I would hope they would go back to a pre-white era and represent the changes that have happened over time, including the logging industry, the changes to river travel, and industrial changes. The closing of the upper Mississippi locks was an important act in protecting the river. I don't know much about the indigenous history, but I think it would be important to have this represented.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey	Upper Harbor Terminal and Public Spaces Survey	There should be some recognition in the redevelopment of the historic site of the original lumber industry, just as has been done with the flour milling district. It is nice to keep a memory alive of the greatness of the area in the 1800s. However, it is absolutely time to turn this area into a new type of use of this entire area near the river. I also talked to the team that is working on the revitalization of the waterfront in Milwaukee, where they are just starting to make the complete changes in uses. We need planners that understand that a great waterfront of the future will have no industry but will have great parkland and open spaces combined with amenities that serve people who are using the hopefully attractive area.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Upper Mississippi Regional Park! The biggest factors making this area of the river successful is nature and the access that people have to the river via bike and walking paths. I personally use the paths multiple times a week; mostly for biking. When my children were little we would go to the playground, interpretive center, wading pool and picnic grounds near 49th Ave. This park is very popular for all of these amenities, and people like to come to this park for the amenities, especially because they feel like they are in a wild area outside of a city environment. Children can see and learn about wildlife, plants and more. It is not unusual to see Eagles and other wildlife.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		It is important to have most of the area available to hold large events and festivals. The riverfront park in Portland is an example of how a city can have festivals going on almost every week that attracts various types of crowds. There are other cities that have similar areas. Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I would love to see something as large as Millennium Park in Chicago as pictured.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Large scale amphitheater Love the idea of the Minnesota Orchestra performing there.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Mid to large. Permanent stage with open fields and/or amphitheater with terraced seating
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Mid-size, outdoor, room for food trucks and human parking.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Pavilion style
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Permanent stages with fields for gathering. It would be nice to have music, theater, etc. going on simultaneously. I think an amphitheater would be too loud for the surrounding neighborhoods (this isn't the Gorge).

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Similar to Lake Harriet band shell, but with more structured seating like the venue in millennium park (Chicago). Can be big, but doesn't have to be
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		The space could allow for a pretty large scale, but I would like to see a variety of uses available (picnic/playground) I would envision a scale similar to the Harriett bandshell. Permanent stage with moderate open field space - amphitheater would be great, or an permanent over water stage. Build it, we will come.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Uses a medium elevated stage that can be used for performances
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		We need a performance space that would serve 1 or 2 thousand people regularly. It would be good to have a site like Lake Harriet where there are performances every night during good weather. The idea to have concerts of 10,000 would be nice but I don't think the permanent seating should be that large because that would probably limit the use of the site for other activities, and there would probably not be enough large concerts to justify the loss of so much space that could be used for other activities. However, if it is built as a structure rather than just built up earth, there could be amenity businesses housed under the seating. There may be a way where the seating area (if the seats were removable) wouldn't use up too much space that could be used for other activities and could be used some way in winter for sledding. etc If we could get regular crowds of 10,000 and it could be places in an area that would not interfere with maximum use of the area it would be okay. However, if there are charges it might greatly cut into the number of Northsiders who could use it regularly.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		While all could be envisioned, I think the amphitheatre idea would require some major industry input to be successful
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Amphitheaters with permanent hillside or terraced seating,
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Both an amphitheater with park benches ~ on the scale of the Lake Harriet bandshell and buskers for everyday.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		I hope that any musical venue development would be scaled to aesthetically contribute to the natural riverfront, and not overwhelm it. That goes for any of the developments that would occur in this place. I think the first two pictures represent a smaller venue idea, but because they are in the midst of cement and urban backgrounds they do not fit. Small, but natural would be ideal - somewhat like the setting on Nicollet Island. The third image is best, but a bit too developed outside of the music venue area. The final picture, with the huge metallic sculptures is atrocious!
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Impromptu performances by solo musicians. Music as the main attraction, will support other establishments. See, Saint Anthony Main.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Large amphitheater with hillside of terraced seating
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Love the idea of an amphitheater that could serve multiple purposes - music, plays, speakers, and other performances etc.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		music venue seasonal minimum wage jobs is not what North Minneapolis needs

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		None. Don't build such a thing. Don't need it. It will just compete with existing locations. This is ridiculous. Dumbest idea I've heard in the more than two decades of living in Minneapolis. We will be competing with not only private venues but public venues -- Target, Xcel, convention center, Orchestra Hall, Northrup, Ordway, your new overbaked Water Works Park, potentially same overkill at other areas along Central Riverfront, Boom Island, Scherer, Sheridan, Ole Olson, etc. etc. etc. At some point we will be oversaturated -- already are, according to some event bookers.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		The ampatheater as big as practicable.
Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		We have no access to river in most of northeast Minneapolis. I would like to drive across Camden Bridge and be able to enjoy some non-industrial site, not overly programming like this debacle appears to be headed to be. Hideous decision you have made. At most, I could accept no major infrastructure but programming for small-scale acoustic music only. Something all ages could enjoy and access. Not the crap First Avenue brought to Scherer. And no alcohol or food trucks. If you want some concessions, to it like the place at Minnehaha, not some diesel-fumed meat-centric, environmentally ignorant offering from a truck.

Upper Harbor Terminal	PreConcept	Online survey	7/23/2017	Upper Harbor Terminal and Public Spaces Survey		Just as something near a greenway drive (via Camden Bridge and that area). A nice, peaceful green area in the city.

Upper Harbor Terminal	Early engagement	Meeting	9/26/2015	Northside Neighborhood Council (NNC)	Capri Theatre	The entire UHT should be park...no development would be proposed
Upper Harbor Terminal	Post Concept Letter					planned north connection to Webber Parkway would connect the two parkways and help create an important link into the north Minneapolis neighborhoods across I-94. In exploring this idea, we found there are only two parcels to the north of the site, one of which is already owned by the City, so the connection is feasible and should be explored in this planning process.
						Dining overlooking it (river)
						Something that shows the local support for the arts would be welcomed. Including students from Perpich Center for the Arts and MCAD in the creation would be great. Showcasing the beauty of appropriate and sustainable landscaping along the river would also be great. Involving the Arboretum for that would make me proud.
